WORK EXPERIENCE

Lead Frontend Engineer

Scuudu Labs

01/2021 - Present

Enugu, Nigeria

Scuudu Labs is a startup that is solving some of African's biggest challenges with technology.

Achievements/Tasks

- Supervised a team of three front-end developers to build the store section and create content for the website.
- built a QR code scanner in a mobile app (Friday) to enables users scan device QRcode during setup instead of manually entering network SSID and password.
- built frontend MVP for Scuudu's website and Friday mobile App both for iOS and Android.

Contact: Chukwuemeka Onyebuchi - emeka.onyebuchi@scuudu.com

Frontend Engineer

Kudibar

01/2021 - 12/2021

Lagos, Nigeria

An event hosting and ticketing Arena

Achievements/Tasks

- Worked on the web app redesign, implemented the designs and interactions of the video conferencing sections which increased clients interest by 10%.
- Created email templates using MJML.
- Did a fast switch from Next.js to Vue.js (Nuxt) due to client requirement.

Contact: Ebukar - ebukar@kudibar.com
